

Kieran's Guide to Online safety for...

MINECRAFT

What is Minecraft?

Minecraft is a video game where you can build creative worlds. You can build houses and castles out of different types of blocks.

How old must you be to play Minecraft?

You have to be at least 7 years old to play Minecraft in the UK.

Minecraft is a fun immersive game so you should always set time limits and regular breaks.

If you are ready to test your online safety knowledge, then try the quiz at Kieran's stand during the event.

What are Minecraft Realms?

Minecraft can be played as a multi-player game with anyone in the world. However, it is better to play only with people you know.

Minecraft Realms let's us set up a private server and invite only the people we know to play with us online.

What online safety features does Minecraft have?

You can switch off the chat so that other gamers can't talk to you.

You can disable multi-player mode to prevent other people from joining your worlds.

You can enable the profanity filter to stop other people sending rude words.
